

# SAN RESTAURANT

## A LA CARTE

A little respect, that's all the Earth asks. The ancient, San hunter-gatherers of Southern Africa lived as one with their world. They used only what they needed. Today following their example, we serve fresh produce that is both seasonal and as close to Sandton as possible. That way, we all reduce our carbon impact and by using re-cycled glassware and locally produced crockery, we also support our surrounding communities. Let's keep it down-to-earth. Enjoy!

### GRILLS

**Chalmar beef** has been growing beef since 1969. All young calves are pasture reared for 3 to 5 months before entering the feedlot where the cattle is then grain fed. By rearing young cattle on the pasture and full vertical integration over their entire production chain, Chalmar guarantees their ability to produce consistent quality from beginning to end. By doing so, you will enjoy tender and juicy beef when ordering a Chalmar steak.
